PROFESSIONAL SUMMARY

Strategic and forward-thinking professional transitioning into software engineering, bringing an understanding of HTML, CSS, and JavaScript and a drive to apply problem solving skills in a technical environment. Passionate about building user-centered applications that deliver engaging digital experiences. Currently expanding technical expertise through the pursuit of a Bachelor's Degree in Computer Software Engineering and completing by June 2026 the TechElevators software development bootcamp.

CORE COMPETENCIES

- Web Development
- Software Engineering
- Programming Languages
- Project Coordination
- Technical Troubleshooting
- Cross-Functional Collaboration
- Process Improvement
- Database Administration
- Data Analysis & Reporting

EDUCATION

Southern New Hampshire University (SNHU)   July 2025 – Present
Bachelor's Degree in Computer Software Engineering
- Program Focus: Core principles of software engineering, including programming fundamentals, systems design, application development, and problem solving using various software tools and technologies

Texas A&M University   Graduated: 2023
Master of Business Administration (MBA) in Finance & International Business (Honors, Top 10% of Class)

The University of Findlay   Graduated: 2019
Bachelor of Science (BS) in Finance / Minor in Business Administration & Chemistry (Honors, GPA: 3.57)

CERTIFICATIONS

- Google Data Analytics
- Introduction to Programming
- Responsive Web Design
- Python Programming Level 1
